

## Weddings

In addition to playing great music for your guests to dance to, our DJ will organize all events during your evening. We provide a Wedding Information Sheet which will help you decide on special songs and the timing of events throughout the night. We also provide a **CD Sampler** of suggested Wedding Songs as well as songs suitable for the father and bride or mother and groom. We can also provide ceremony music if required.

If you are still in the planning stages of your wedding we can make suggestions on:

## *Our Music*

**Music Selection** is what makes a DJ great or poor. The following are why our DJ's are great.

### ***Listen***

We take the time to listen to you and your audience so that we can play music to suit the tastes of our audience.

### ***Experience***

We have over 20 years experience selecting music for our audience. We put **our** music tastes aside and select music based on the experience gained from thousands of dances.

### ***Research***

We subscribe to international publications that provide us with information on what music is hot and what is not.

### ***Listings***

We maintain up to date listings of the music we carry. We provide our customers with a copy of these listings.

### ***New Music***

We continually update the music that we carry with both the latest hits and the most requested classics of the 40's thru the 90's.
